MANAGEMENT-COMPUTER APPLICATION, SURAT**
VEER NARMAD SOUTH GUJARAT UNIVERSITY, SURAT
PROJECT REPORT

ON

“INTERNET BANKING MANAGEMENT”

AS A PARTIAL REQUIREMENT FOR THE DEGREE
OF
BACHELOR OF COMPUTER APPLICATION
(B.C.A)
2024-2025

GUIDED BY:

Dr.Ami Desai

SUBMITTED BY:

Jenil Dhola(7298)

Harsh Lakhani (7313)

Darshan Lakhani (7312)

Utsav Chheta (7294)

Acknowledgement

The reason of completing the project work successfully is not just our efforts but efforts of many people. The people, who trusted, guided and encouraged us with every means. Guide is a person who provides you the direction towards success, so we feel great pleasure to express our gratitude to all our guides, our faculty members as well as every person who helped me directly or indirectly with our project.

We would like to thank **Dr. Marteen Patel** (In-charge Principal at C.K.Pithawalla College) and **Mr. Gaurang Joshi** (BCA-HOD at C.K.Pithawalla College) for granting us an opportunity to work on this project. Their skills and experience was a guiding path in this learning process. She made constant efforts to shape up our skills as per the industry Standards. She provided us a very homely and friendly environment which made it the best place to work. Their guidance was really priceless and will always be a guiding light in Industry.

We are also indebted to our Faculty **Dr.Ami Desai** who provided constant encouragement, support & valuable guidance before and during our project. It was her effort who led us to this place for project work. Her guidance and suggestions were invaluable.

Thank you very much

Jenil Dhola(7298)

Harsh Lakhani (7313)

Darshan Lakhani(7312)

Utsav Chheta (7294)

Introduction

- 1.1 Project Profile
- 1.2 Project Introduction

1.1 Project Profile

Project Title	: Internet Banking Management
Objective	: To provide a secure and efficient platform for online banking services
Institute Name	: C.K.Pithawalla College of Commerce- Management - Computer Application
Developed For	: DigiBankX
Project Guide	: Dr.Ami Desai
Front End	: PHP
Back End	: MySQL
Team Members	: 4

1.2 Project Introduction

Introduction to DigibankX - Internet Banking Management System

- DigibankX is an advanced online banking system designed to simplify and manage various banking activities such as transactions, loans, and complaints.
- It features three key panels: Admin, Staff, and Client, ensuring organized control and efficient workflow.
- The Admin panel handles user management, financial reports, and complaint resolution.
- The Staff panel manages client profiles, transactions, and loan approvals.
- The Client panel allows users to manage accounts, apply for loans, and file complaints.
- The system is designed with strong data validation, ensuring accurate information entry and improved security.
- DigibankX currently supports only domestic transactions, requires manual loan approvals, and may face delays in complaint handling during busy periods.
- Future plans include introducing automated loan approvals, biometric authentication for improved security, and multilingual support for wider accessibility.
- Additional enhancements like a mobile app and improved financial reports with visual insights are planned to improve user convenience and system efficiency.
- The project is developed using HTML, CSS, JavaScript, and AJAX for the front-end, while PHP and MySQL power the back-end.
- Libraries like SweetAlert and jQuery are integrated for better alerts, form handling, and dynamic updates.
- DigibankX aims to provide a secure, reliable, and user-friendly platform for efficient online banking services.

Chapter

Environment Description

2.1 Hardware and Software Requirement

2.1.1 Development Tools

2.1.2 Client Side Tools

2.1.3 Server Side Tools

2.2 Tools and Technology

2.2.1 Core Technology

2.2.2 Extra Tools

2.1 Hardware and Software Requirement

- **Client Side :**

Internet enabled devices with Web Browser

- **Server Side :-**

Xampp Server (8.0.3)

Disk Space (1 GB)

- **Development Side :**

Processor (Intel CORE i5 11th gen)

O.S (Windows 11 Pro)

Memory (16 GB)

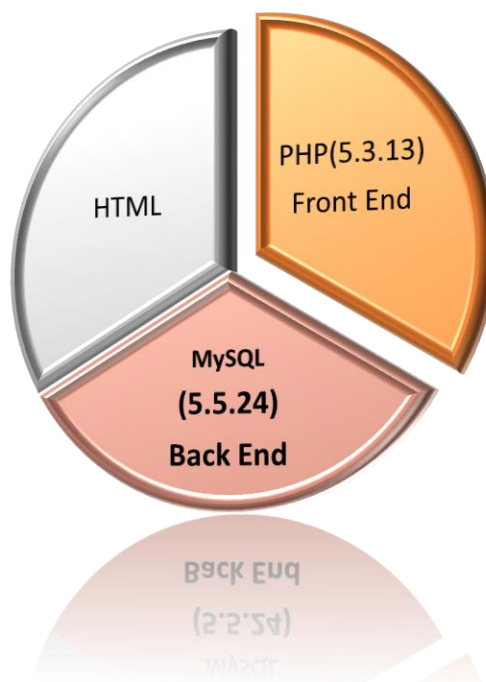

Hard Disk (500 GB)

Web Browser : Developed in Google Chrome(Tested in Google Chrome)

2.2 Tools and Technology

Technology:

➡ Core Technology :

✓ HTML:

- First developed by Tim Berners-Lee in 1990, **HTML** is short for Hypertext Markup Language.
- **HTML** is used to create electronic documents (called pages) that are displayed on the World Wide Web.
- Each page contains a series of connections to other pages called hyperlinks.

✓ MySQL:

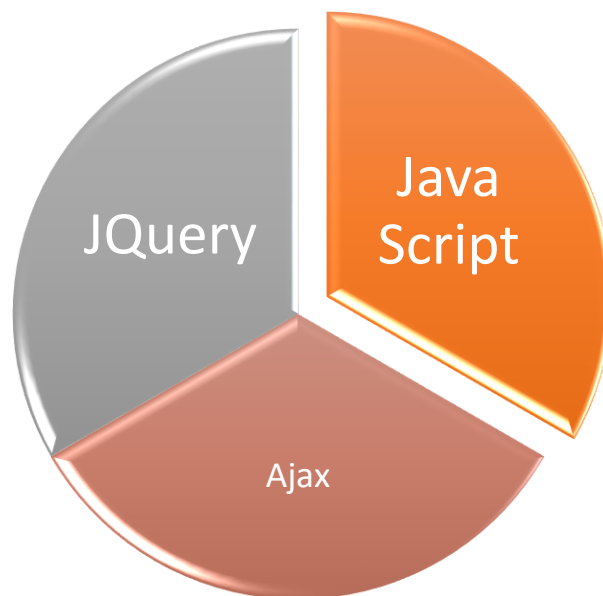

- **MySQL**, the most popular Open Source SQL database management system, is developed, distributed, and supported by Oracle Corporation.

- The **MySQL** website (<http://www.mysql.com/>) provides the latest **information about MySQL** software.
- A database is a structured collection of data.

✓ **PHP:**

- Hypertext Preprocessor (or simply **PHP**) is a general-purpose programming language was 32-bit x86 builds, requiring Windows 32-bit compatibility mode while using **Internet Information Services** (IIS) on a 64-bit Windows platform.

➡ **Extra Technology:**

✓ **JQuery:**

- **JQuery** is a JavaScript library designed to simplify HTML DOM tree traversal and manipulation, as well as event handling, CSS animation, and Ajax.
- **JQuery** also provides capabilities for developers to create plug-ins on top of the JavaScript library.

✓ **AJAX:**

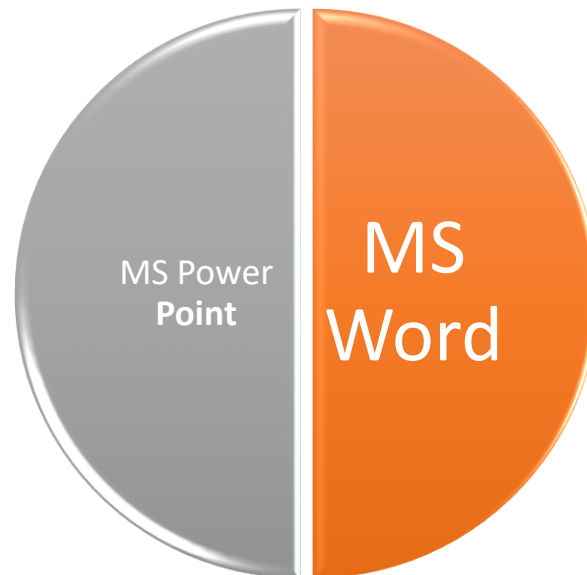

- **AJAX** is a technique for creating fast and dynamic web pages.
- **AJAX** allows web pages to be updated asynchronously by exchanging small amounts of data with the server behind the scenes.
- This means that it is possible to update parts of a web page, without reloading the whole page.

✓ **JavaScript:**

- **JavaScript** is a dynamic computer programming language.
- It is lightweight and most commonly used as a part of web pages, whose implementations allow client-side script to interact with the user and make dynamic pages.
- It is an interpreted programming language with object-oriented capabilities.

Tools:

➞ Documentation Tools:

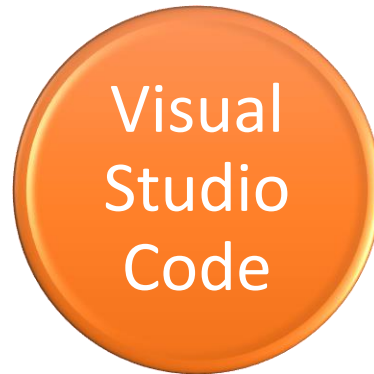

✓ MS Word:

- **Microsoft Word** or **MS-WORD** is a Graphical **word** processing program that users can type with.
- It is made by the computer company **Microsoft**. Its purpose is to allow users to type and save documents.

✓ MS Power Point:

- **PowerPoint** is a slideshow presentation program that's part of the **Microsoft** office suite of tools.
- **PowerPoint** makes it easy to create, collaborate, and present your ideas in dynamic, visually compelling ways.

➔ Development Tools:

Visual Studio Code

- **Visual Studio Code (VS Code)** is a powerful and versatile code editor used for developing the **DigiBankX** project.
- It offers a clean, functional, and fast environment ideal for writing PHP, HTML, CSS, and JavaScript code.
- VS Code provides excellent built-in features such as **IntelliSense**, **Git Integration**, and **Debugging Tools**, which streamline the development process.
- Additionally, its extensive support for **extensions**, **snippets**, and customizable settings enhances productivity and makes coding efficient.
- The lightweight yet feature-rich nature of VS Code played a crucial role in developing and maintaining the robust features of **DigiBankX**.

Chapter

Existing System

3.1 Introduction

3.2 Limitation

3.1 Introduction

In traditional banking systems, clients often need to visit a physical bank branch to perform various financial tasks such as transactions, loan applications, and complaint submissions. This process can be time-consuming, inconvenient, and inefficient.

Challenges in the Existing System

- Limited Service Availability:** Clients have restricted access to banking services outside regular banking hours, causing delays in essential financial.
- Lack of Real-Time Updates:** Tracking transactions, loan statuses, or complaint resolutions often requires direct interaction with bank staff, leading.
- Manual Processes:** Paper-based procedures and in-person verifications.
- Geographical Constraints:** Clients in remote areas may struggle to access physical bank branches, limiting their ability to manage finances efficiently.
- Security Risks:** Handling cash transactions at physical branches may expose clients to potential theft or fraud.

3.2 Limitation

- **Limited Service Hours:** Traditional banking systems operate within fixed working hours, restricting clients from performing transactions, applying for loans, or submitting complaints outside those hours.
- **Limited Access to Services:** Clients may face inconvenience if specific banking services are unavailable at their nearest branch, requiring them to visit multiple locations.
- **Delayed Processes:** Manual paperwork, long queues, and in-person visits often result in delays for essential banking tasks like loan approvals and account updates.

4

Chapter

Proposed System

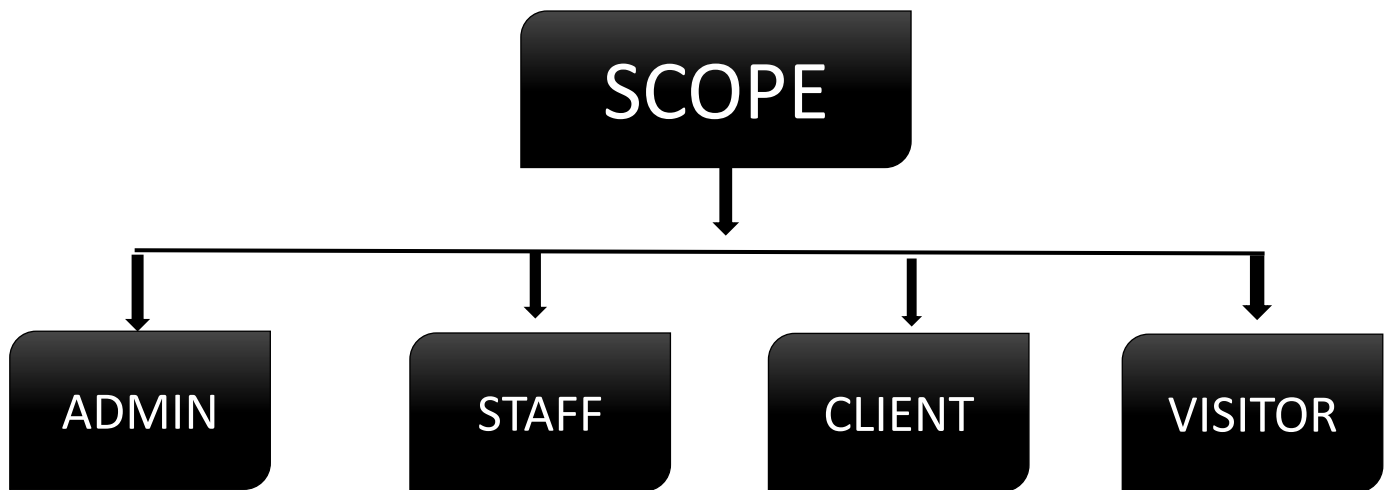

4.1 Scope

4.2 Aim and Objective

4.3 Excepted Advantage

4.1 Scope

- ✓ The scope of the website “**Wooden Street**” is global.

Admin

The key roles of the Admin in DigibankX are:

- **User Management:**
 - View, activate, or deactivate registered Staff and Clients.
 - Block or unblock Staff and Clients as needed.
- **Loan Management:**
 - View and manage loan applications submitted by Clients.
 - Approve or reject loan requests based on eligibility criteria.
- **Transaction Management:**
 - Monitor all client transactions for security and accuracy.
 - Manage disputed transactions and ensure proper resolution.
- **Complaint Management:**
 - View and respond to complaints raised by Clients or Staff.
 - Track the status of complaints and ensure timely resolution.
- **Financial Reporting:**
 - Generate and view detailed financial reports such as monthly transactions, revenue analysis, and loan approval statistics.
- **Profile Management:**
 - Update their own profile and change their password.
- **Content Management:**
 - Manage CMS pages like *About Us*, *Contact Us*, etc.
 - Update banner images displayed on the client side.
- **Notification Management:**
 - Send important announcements, alerts, and updates to Staff and Clients.

Staff

The key roles of Staff in DigibankX are:

- **Client Management:**
 - View, manage, and update client information.
 - Assist clients with account-related issues, profile updates, and password recovery.
- **Loan Management:**
 - Review and process loan applications submitted by clients.
 - Approve or reject loan requests based on provided documents and eligibility criteria.
- **Transaction Management:**
 - Monitor client transactions to ensure accuracy and security.
 - Assist in resolving disputed transactions and verifying payment status.
- **Complaint Management:**
 - View, respond to, and manage complaints raised by clients.
 - Track the status of complaints to ensure timely resolution.
- **Financial Report Management:**
 - View and analyze financial reports such as transaction summaries and loan status updates.
- **Profile Management:**
 - Update their own profile information and change their password.

Client

The key roles of Clients in DigibankX are:

- **Account Management:**
 - Register and create their account to access banking services.
 - Update their profile information and change their password when needed.
- **Transaction Management:**
 - Perform various transactions such as fund transfers, bill payments, and deposits.
 - View transaction history and download statements for record-keeping.
- **Loan Management:**
 - Apply for loans by submitting the required documents.
 - Track the status of their loan applications (e.g., Pending, Approved, or Rejected).
- **Complaint Management:**
 - Raise complaints regarding transaction issues, accounts concern, or service problems.
 - Track the status of their complaints until resolution.
- **Offer and Notification Viewing:**
 - View promotional offers, discounts, and important notifications shared by the Admin.

Visitor

The key roles of Visitors in DigibankX are:

- **Information Access:**
 - View general information about DigibankX services, including features, benefits, and security guidelines.
 - Access public pages like *About Us*, *Contact Us*, and FAQs for guidance.
- **Registration Prompt:**
 - Visitors must register as a Client to access personalized services such as transactions, loan applications, and complaint management.

4.2 Aims and Objectives

- Our aim is to provide a user-friendly and secure platform for clients to manage their banking needs efficiently.
- To enable clients to perform essential banking tasks such as fund transfers, loan applications, and complaint submissions from the comfort of their homes.
- To reduce manual paperwork by offering digital records, ensuring faster processing and improved accuracy.
- To provide clients with real-time updates on their transactions, loan statuses, and complaint resolutions.
- To enhance security by implementing robust measures such as data encryption, secure login systems, and two-factor authentication.
- To improve overall banking efficiency by streamlining processes for Admins, Staff, and Clients

4.3 Excepted Advantages

- The website allows the Admin to manage client accounts, oversee staff activities, and handle customer complaints effectively.
- The platform enables Visitors to access essential banking information, FAQs, and submit inquiries without the need for registration.
- Clients benefit from fast, secure, and user-friendly services, ensuring their banking needs are addressed efficiently.
- The system provides an interface for clients to raise inquiries about transactions, loans, or account issues, ensuring quick resolutions and improved customer satisfaction.
- The platform allows clients to provide feedback on banking services, helping the Admin and Staff improve service quality.
- Since DigiBankX operates online, clients can access services 24/7 from anywhere, ensuring banking convenience without visiting a physical branch.
- DigiBankX offers a wide range of integrated services like fund transfers, loan management, transaction tracking, and complaint management — all in one place, improving efficiency and saving time.
- With features like real-time updates, secure transactions, and digital record-keeping, the platform ensures improved accuracy and transparency.

6.1 Table Structure

Table Name : **ib_client_feedback**

Use: It is used to store the information of client_feedback.

Field	Type	Constraints	Description
ID	int(10)	Primary Key (AutoIncrement)	Unique field.
client_id	Int(10)	foreign key	Unique field.
subject	varchar(255)	Not Null	Specify subject
feedback_message	text	Not Null	Specify feedback
Submission_date	Timestamp	Current Timestamp	Specify Contact Number.

Table Name : ib_acc_types

Use : It is used to store the information of a/c types.

Field	Type	Constraints	Description
acctype_id	int(10)	Primary Key (AutoIncrement)	Unique field.
Name	varchar(200)	Not Null	Specify Name.
discription	Longtext	Not null	Specify description
Rate	Varchar(200)	Not null	Specify rate
Is_active	Tinyint(1)	Not null	Specify active
Min_balance	Decimal(10,2)	Not null	Specify minimum balance

Table Name : ib_admin

Use : It is used to store the information of admin.

Field	Type	Constraints	Description
Admin_id	int(11)	Primary Key (AutoIncrement)	Unique field.
Name	varchar(200)	Not Null	Specify Name.
email	varchar(200)	Not null	Specify email
password	varchar(200)	Not null	Specify password
profile_pic	varchar(200)	Not null	Specify profile picture
Is_active	Tinyint(1)	Not null	Specify active
otp	Varchar(6)	allows null	Specify otp
Otp_expiry	Date_time	Allows null	Specify otp expiry

Table Name : ib_bankaccounts

Use : It is used to store the information of bankaccounts .

Field	Type	Constraints	Description
account_id	int(11)	Primary Key (AutoIncrement)	Unique field.
Acc_Name	varchar(200)	Not Null	Specify a/c Name.
account_number	varchar(200)	Not null	Specify a/c number
Acc_type_id	varchar(200)	foreign key (allows null)	Specify acc type
Acc_rate	varchar(200)	Not null	Specify acc rate
Acc_status	varchar(200)	Not null	Specify acc status
Acc_amount	varchar(200)	Not null	Specify a/c amount
client_id	int(10)	foreign key	Specify client id
Created-at	timestamp	not null	Specify created-at
Is_active	Tinyint(1)	Not null	Specify active

Table Name : **ib_clients**

Use : It is used to store the information of client .

Field	Type	Constraints	Description
client_id	int(11)	Primary Key (AutoIncrement)	Unique field.
Name	varchar(200)	Not Null	Specify Name.
phone	varchar(200)	Not null	Specify phone
Adress	varchar(200)	Not null	Specify adress
Email	varchar(200)	Not null	Specify email
Adhar_number	varchar(200)	Not null	Specify adhar_number
Pan_number	varchar(200)	Not null	Specify pan_number
password	varchar(200)	Not null	Specify password
Profile_pic	Varchar(200)	not null	Specify profile picture
Is_active	Tinyint(1)	Not null	Specify active
otp	Varchar(6)	allows null	Specify otp
Otp_expiry	Datetime	Allows null	Specify otp expiry

Table Name : **ib_nominees**

Use : It is used to store the information of nominees .

Field	Type	Constraints	Description
id	int(11)	Primary Key (AutoIncrement)	Unique field.
client_id	int(11)	Not null	Specify client id.
Nominee_Name	varchar(200)	Not Null	Specify nominee Name.
Relation	varchar(200)	Not null	Specify
Nominee_Email	varchar(200)	Not null	Specify nominee email
Nominee_phone	varchar(200)	Not null	Specify Nominee_phone
Nominee_Adress	varchar(200)	Not null	Specify Nominee_adress
Is_active	Tinyint(1)	Not null	Specify active
Adhar_number	varchar(12)	Not null	Specify adhar_number
Pan_number	varchar(10)	Not null	Specify pan_number

Table Name :ib_staff

Use : It is used to store the information of staff .

Field	Type	Constraints	Description
staff_id	int(11)	Primary Key (AutoIncrement)	Unique field.
Name	varchar(200)	Not Null	Specify Name.
phone	varchar(200)	Not null	Specify phone
Email	varchar(200)	Not null	Specify email
password	varchar(200)	Not null	Specify password
Sex	varchar(200)	Not null	Specify sex
Profile_pic	Varchar(200)	not null	Specify profile picture
otp	Varchar(6)	allows null	Specify otp
Otp_expiry	Datetime	Allows null	Specify otp expiry
Adhar_number	varchar(12)	Not null	Specify adhar_number
Pan	varchar(10)	Not null	Specify pan_number

Table Name :ib_systemsetting

Use : It is used to store the information of **systemsettin**

Field	Type	Constraints	Description
Id	int(11)	Primary Key (AutoIncrement)	Unique field.
Sys_Name	longtext	Not Null	Specify name.
Sys_lageline	longtext	Not null	Specify tageline
Sys_logo	Varchar(200)	Not null	Specify logo
Is_active	Tinyint(1)	Not null	Specify active

Table Name :ib_transaction

Use : It is used to store the information of **transaction** .

Field	Type	Constraints	Description
tr_id	int(11)	Primary Key (AutoIncrement)	Unique field.
code	Varchar(200)	Not null	Specify code
account_id	int(11)	foreign key	Specify account id
Tr_type	Varchar(200)	Not null	Specify type

Tr_status	Varchar(200)	Not null	Specify status
client_id	Int(10)	foreign key	Unique field.
transaction_amt	Varchar(200)	Not null	Specify transaction amt
receiving_acc_no	Varchar(200)	Not null	Specify receiving acc no
Created-at	timestamp	not null	Specify created-at
Is_active	Tinyint(1)	Not null	Specify active

Table Name :ib_loan_application

Use : It is used to store the information of **application**.

Field	Type	Constraints	Description
id	int(10)	Primary Key (AutoIncrement)	Unique field.
applicant_name	Varchar(255)	Not null	Specify code
loan_amount	decimal(10,2)	foreign key	Specify account id
Application_date	datetime	Not null	Specify type
status	enum	Not null	Specify status
Reviewed_by	Int(11)	foreign key	Unique field.
admin_review_id	Int(11)	foreign key	Specify transaction amt
Review_date	datetime	Not null	Specify receiving acc no

admin_remark	text	Not null	Specify active
Client_id	Int(10)	foreign key	Specify cid
Loan_type_id	Int(11)	foreign key	Specify loan_type_id
is_approved_by_staff	Tinyint(1)	None	Specify staff
income_salary	Decimal(10,2)	None	Specify income

loan_duration_years	Int(11)	None	Specify loan
loan_duration_months	Int(11)	none	Specify duration

Table Name : loan_payments

Use : It is used to store the information of **loan_payments** .

Field	Type	Constraints	Description
id	int(10)	Primary Key (AutoIncrement)	Unique field.
Client_id	int(10)	foreign key	Specify client id
loan_id	int(10)	foreign key	Specify loan id
emi_date	date	foreign key	Specify emi date
amount	Decimal(10,2)	Not null	Specify amount
status	enum	Not_null	Specify status.
Created_at	timestamp	Not null	Specify created at

Table Name : loan_types

Use : It is used to store the information of loan type .

Field	Type	Constraints	Description
id	int(10)	Primary Key (AutoIncrement)	Unique field.
type_name	Varchar(100)	Not null	Specify type_name
description	text	foreign keyclient	Specify description
interest_rate	Decimal(5,2)	Not null	Specify rate
Max_amount	Decimal(15,2)	Not null	Specify amount
Created_at	Timestamp	foreign key	Unique field.
Is_active	tinyInt(11)	Not null	Specify active

Table Name : password_reset

Use : It is used to store the information of loan types.

Field	Type	Constraints	Description
id	int(10)	Primary Key (AutoIncrement)	Unique field.
Admin_id	int(10)	foreign key	Specify admin_id
token	Varchar(64)	Not null	Specify token
expiry	datetime	Not null	Specify expiry

Table Name : Interest_log

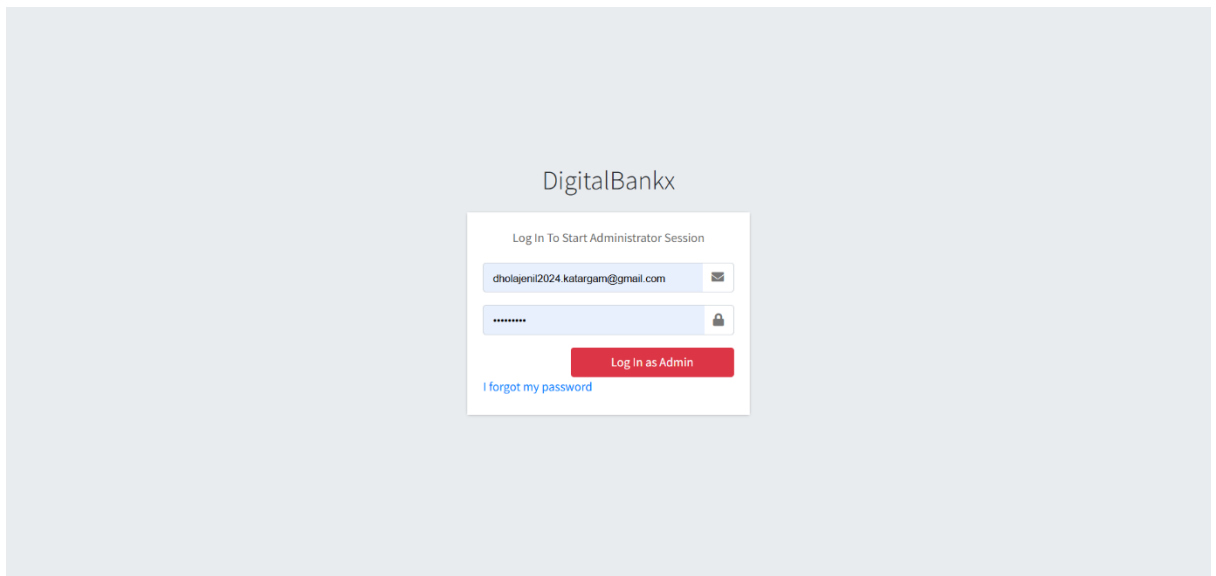

Use : It is used to store the information of interest log .

Field	Type	Constraints	Description
id	int(10)	Primary Key (AutoIncrement)	Unique field.
Month_year	Varchar(7)	foreign key	Specify month and year
Deposited_by	Int(11)	foreign keyclient	Specify deposited by
Created_at	datetime	Not null	Specify created at

6.2 Screen Layout

➡ Admin Side:

Login:-

The screenshot shows a login interface for 'DigitalBankx'. The title 'DigitalBankx' is centered at the top. Below it, the text 'Log In To Start Administrator Session' is displayed. The login form consists of two input fields: the first for the email address, which contains 'dholajeni2024.katargam@gmail.com', and the second for the password, which is masked with asterisks. To the right of each input field is an icon (an envelope for email and a padlock for password). Below the password field is a red button labeled 'Log In as Admin'. At the bottom left of the form, there is a blue link that says 'I forgot my password'.

- In this page admin can login in to own website for authentication check.
- In any situation admin forgot the password they can get password on registered mail it will display on next page.

→ Forget Password:-

system administrator Profile

Update Profile Change Password

Old Password

New Password

Confirm New Password

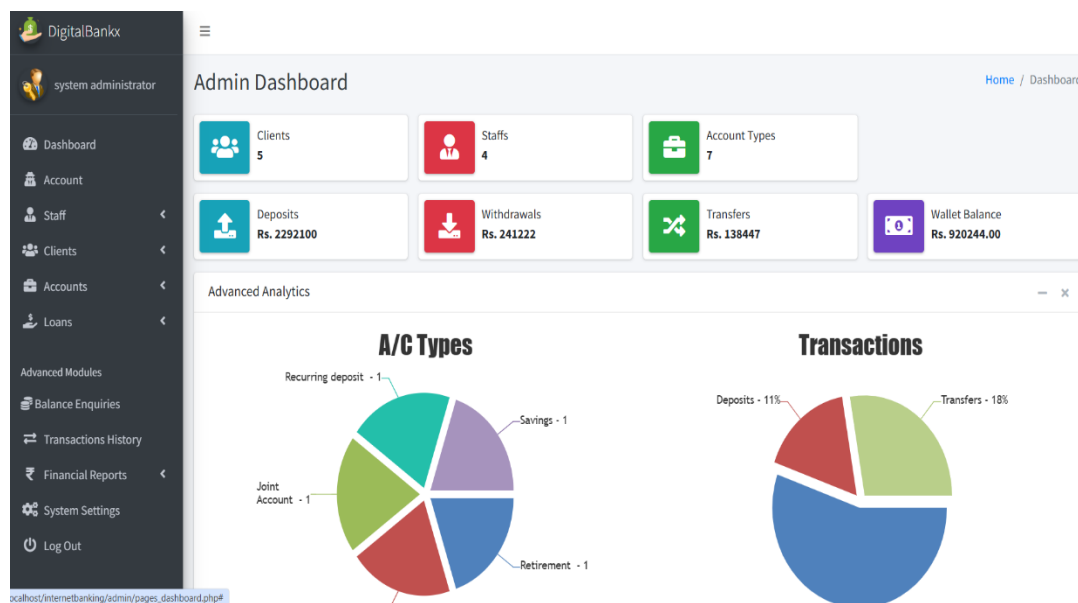

Change Password

Email: dholajeni2024.katargam@gmail.com

Number: iBank-ADM-0516

→ Admin get their Forgot password through email and if they want to change it they can change password after login

Dashboard:-

→ In this Page admin can see the Dash Board, how many clients, staff, a/c types, deposits, withdrawals, transfer, wallet balance

Admin update profile:

The screenshot shows the 'system administrator Profile' page in the DigitalBankx application. The left sidebar contains navigation links: Dashboard, Account, Staff, Clients, Accounts, Loans, Advanced Modules, Balance Enquiries, Transactions History, Financial Reports, System Settings, and Log Out. The main content area has a breadcrumb trail: Dashboard / Profile / system administrator. The profile card on the left displays a user icon, the name 'system administrator', the handle '@Admin iBanking', the email 'dholajenil2024.katargam@gmail.com', and the ID 'iBank-ADM-0516'. The 'Update Profile' section on the right contains three input fields: 'Name' (pre-filled with 'system administrator'), 'Email' (pre-filled with 'dholajenil2024.katargam@gmail.com'), and 'Number' (pre-filled with 'iBank-ADM-0516'). There is an 'Update Account' button below the 'Number' field.

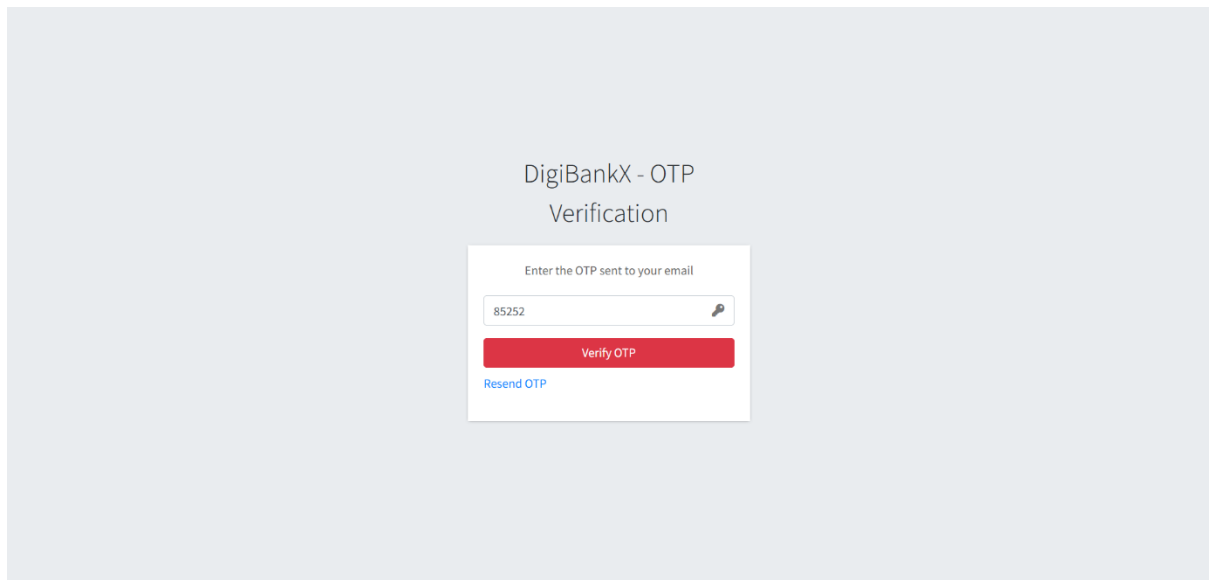

→ in this admin can update their profile. For update they have to enter name and email .

Admin change password :

This screenshot shows the same 'system administrator Profile' page, but with the 'Change Password' section active. The 'Update Profile' button is disabled, and the 'Change Password' button is highlighted in blue. The password change form includes three input fields: 'Old Password', 'New Password', and 'Confirm New Password', each masked with dots. A 'Change Password' button is located at the bottom of the form. The profile card on the left remains the same as in the previous screenshot.

→ In this page Admin change the password. they have to enter old password and then they have to enter new password and confirm password.

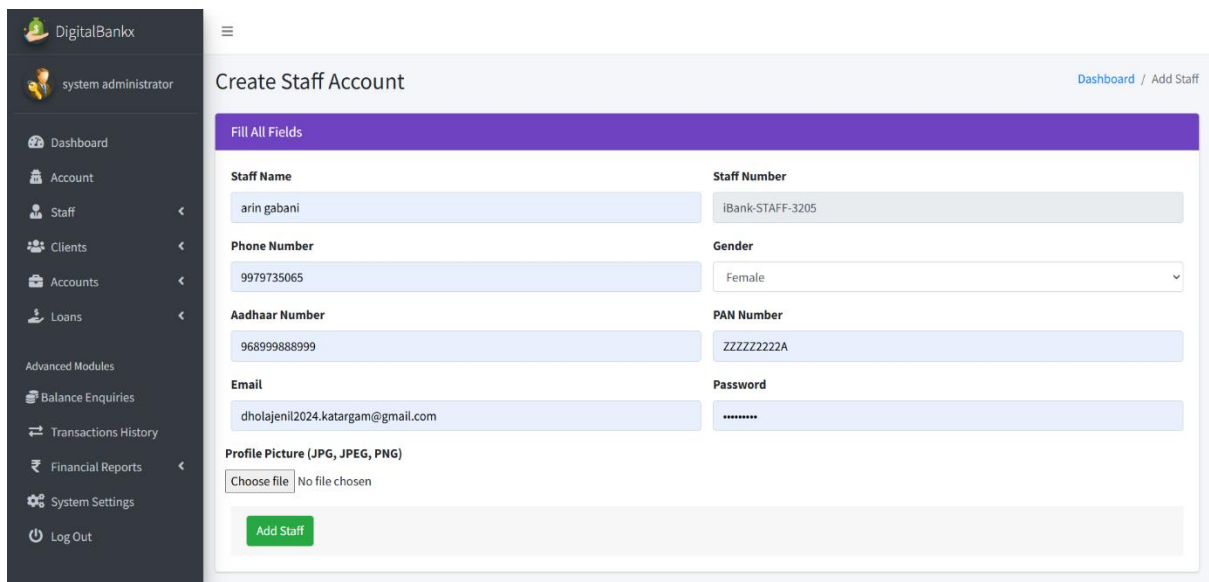

Change password OTP

The image shows a web interface for DigiBankX OTP Verification. The title is "DigiBankX - OTP Verification". Below the title, there is a text input field containing "85252" with a small eye icon to its right. Below the input field is a red button labeled "Verify OTP". Below the button is a blue link labeled "Resend OTP".

→ If you forgot the password we have fasality of change password with OTP verification.

Create staff :

The image shows a web interface for creating a staff account. The title is "Create Staff Account". On the left, there is a sidebar with a logo "DigitalBankx" and a user profile "system administrator". The sidebar contains a list of menu items: Dashboard, Account, Staff, Clients, Accounts, Loans, Advanced Modules, Balance Enquiries, Transactions History, Financial Reports, System Settings, and Log Out. The main content area has a header "Create Staff Account" and a sub-header "Fill All Fields". Below the sub-header, there are several input fields: Staff Name (arin gabani), Staff Number (IBank-STAFF-3205), Phone Number (9979735065), Gender (Female), Aadhaar Number (96899888999), PAN Number (ZZZZZZ222A), Email (dholajenil2024.katargam@gmail.com), and Password (*****). There is also a section for Profile Picture (JPG, JPEG, PNG) with a "Choose file" button and "No file chosen" text. At the bottom, there is a green button labeled "Add Staff".

→ In this page Admin can create a staff . it can ad staff after enter staff name,mo. Number ,gender , aadhar number , pann number etc.

→ staff page:

Dashboard / iBank Staffs / Manage Staffs

Select on any action options to manage your staffs

#	Name	Staff Number	Contact	Email	Gender

→ Admin can disable and enable the client.

Manage clients :

The screenshot shows the 'arin gabani Profile' page. On the left is the same sidebar as the previous page. The main content area has a header 'arin gabani Profile' and a breadcrumb 'Dashboard / iBanking Clients / Manage / arin gabani'. Below the header is a profile card for 'arin gabani' with a photo, name, email, phone, client number, and address. To the right of the profile card is a form to 'Update Profile' and 'Change Password'. The form has fields for Name, Email, Contact, Address, Aadhaar Number, PAN Number, and Profile Picture. There are 'Update Account' and 'Browse' buttons.

Profile Card:

- Name: arin gabani
- Email: jenildhola1811@gmail.com
- Phone: 8799050118
- ClientNo: iBank-CLIENT-0423
- Address: A-2/203,DEVI COMPLEX,DABHOLI CHAR RASTA

Update Profile Form:

- Name: arin gabani

- Contact: 8799050118
- Address: A-2/203,DEVI COMPLEX,DABHOLI CHAR RASTA
- Aadhaar Number: 145214565588
- PAN Number: IHXPD1193P
- Profile Picture: rahul.jpg (with 'Browse' button)
- Buttons: [Update Account](#)

→ In this page admin can update the profile of clients.

→ Admin can change the pass word of clients.

Create account categories:

The screenshot shows the 'Create Account Categories' page. On the left is a sidebar with the 'DigitalBankx' logo and a 'system administrator' role. The sidebar lists various modules: Dashboard, Account, Staff, Clients, Accounts, Loans, Advanced Modules, Balance Enquiries, Transactions History, Financial Reports, System Settings, and Log Out. The main content area has a breadcrumb trail 'Dashboard / Add Account Category'. Below this is a form titled 'Fill All Fields'. The form contains four input fields: 'Account Category Name' (with the value 'salary account'), 'Account Category Rates % Per Year' (with the value '10'), 'Minimum Balance' (with the value '100000'), and 'Account Category Code' (with the value 'ACC-CAT-STIQV'). Below these fields is a text area for 'Account Category Description' containing the word 'balance'. At the bottom of the form is a green button labeled 'Add Account Type'.

→ In this page admin create the account categories by add name , rates , min balance of it .

Manage a/c type:

The screenshot shows the 'iBanking Account Types' page. The sidebar is identical to the previous screenshot. The main content area has a breadcrumb trail 'Dashboard / iBank Account Types / Manage Clients'. Below this is a section titled 'Manage Your Account Types'. It includes a 'Show 11 entries' dropdown and a search bar. The main part of the page is a table with 7 entries. Each entry has columns for '#', 'Name', 'Rate', 'Min Balance', 'Code', and 'Action'. The 'Action' column contains three buttons: 'Manage' (green), 'Disable' (yellow), and 'Delete' (red). Below the table, it says 'Showing 1 to 7 of 7 entries'. At the bottom right, there are 'Previous', '1', and 'Next' navigation buttons.

#	Name	Rate	Min Balance	Code	Action
1	Joint Account	10%	0.00	ACC-CAT-8IQVP	Manage Disable Delete
2	Recurring deposit Account	15%	2,000.00	ACC-CAT-VBQLE	Manage Disable Delete

5	Fixed Deposit Account	40%	10,000.00	ACC-CAT-A86GO	Manage Disable Delete
6	Salary Account	6.5%	0.00	ACC-CAT-27DQV	Manage Disable Delete
7	Savings Account	20%	1,000.00	ACC-CAT-4EZFO	Manage Disable Delete

→ In this Page admin can see list of account types .

→ Admin can manage disable and delete the types.

Update category name :

The screenshot shows the 'Update Account Category' form. The left sidebar contains the 'system administrator' role and a menu with 'Dashboard', 'Account', 'Staff', 'Clients', 'Accounts', 'Loans', and 'Advanced Modules'. The main form area has a purple header 'Fill All Fields'. It contains three input fields: 'Account Category Name' (with 'Joint Account' entered), 'Account Category Rates % Per Year' (with '10' entered), and 'Minimum Balance' (with '0.00' entered). Below these is the 'Account Category Code' field with 'ACC-CAT-SIQVP' entered. The 'Account Category Description' field is a rich text editor with a description of a Joint Account. At the bottom is a green 'Update Account' button.

Account Category Name **Account Category Rates % Per Year** **Minimum Balance**

Joint Account 10 0.00

Account Category Code

ACC-CAT-SIQVP

Account Category Description

B *I* |

A Joint Account is a shared bank account owned by two or more individuals, allowing them to manage and access funds collectively. It is commonly used by spouses, business partners, family members, or anyone who wishes to share financial responsibilities. This type of account offers convenience for handling shared expenses such as household bills, savings, or business transactions. Depending on the account terms, withdrawals and transactions may require authorization from one or all account holders. A joint account promotes financial transparency and trust while providing an efficient way to manage funds together.

Update Account

In this page admin can update account category.

Manage a/c :

The screenshot shows the 'Manage iBanking Accounts' page. The left sidebar is the same as the previous screenshot. The main area has a header 'Manage iBanking Accounts' with a breadcrumb trail 'Dashboard / iBank Accounts / Manage Accounts'. Below the header is a section 'Select any action options to manage your accounts'. There is a 'Show 10 entries' dropdown and a 'Search:' input field. The main content is a table with 5 columns: '#', 'Name', 'Acc Number', 'Rate', 'Acc Type', 'Balance', 'Date Opened', and 'Action'. The table contains 5 rows of account data. Each row has 'Manage' and 'Close Account' buttons in the 'Action' column. At the bottom, it says 'Showing 1 to 5 of 5 entries' and has 'Previous', '1', and 'Next' pagination links.

Below the table, it says 'Showing 1 to 3 of 3 entries'. At the bottom right of the table area are 'Previous', '1', and 'Next' buttons.

→ In this page admin can see list of loan application and see its status also.

Review loan application:

The screenshot shows the 'Review Loan Application' page. On the left is a dark sidebar with the 'DigitalBankx' logo and a 'system administrator' role. The sidebar menu includes: Dashboard, Account, Staff, Clients, Accounts, Loans, Advanced Modules, Balance Enquiries, Transactions History, Financial Reports, System Settings, and Log Out. The main content area is titled 'Review Loan Application' and contains a form with the following fields:

- Application Details:**
 - Applicant Name: utsav cheta
 - Loan Type: Home Loan
 - Requested Amount: Rs. 800,000.00
 - Application Date: 05/03/2025 11:38
 - Loan Duration: 10 Years 6 Months
 - Staff Remarks: good
- Review Decision:**
 - ☐ Approve
 - ☐ Reject
- Admin Remarks:** (A large text area for additional comments.)
- Submit Review:** (A blue button at the bottom of the form.)

→ In this page admin can review loan application.

→ Admin also approve or reject the loan.

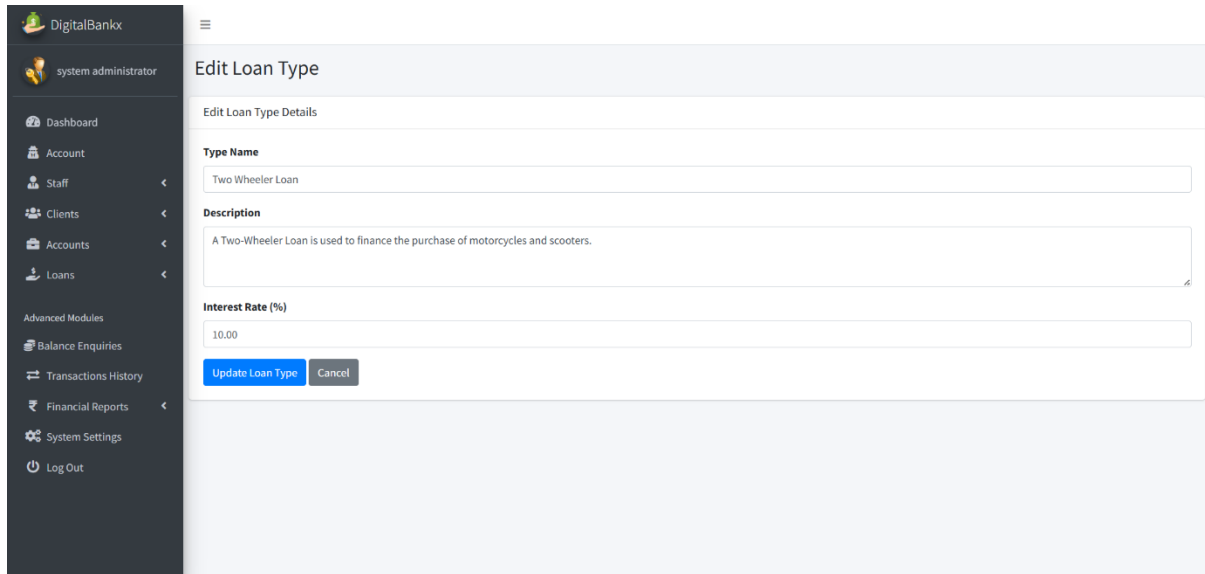

Add loan type :

The screenshot shows the 'Add Loan Type' page. The sidebar is identical to the previous page. The main content area is titled 'Add Loan Type' and includes a breadcrumb trail 'Dashboard / Add Loan Type'. The form has a purple header bar that says 'Fill All Fields'. The fields are:

- Loan Type Name:** Two_Wheeler_Loan
- Description:** h
- Interest Rate (%):** 0.33
- Maximum Loan Amount:** 100000
- Add Loan Type:** (A green button at the bottom of the form.)

In this page admin can add loan type by add loan type name,description and max amount .

- In this page used to manage the internet banking accounts of clients.
- Handle different types of accounts like savings, current, joint, retirement, and recurring deposit accounts.

Manage account:

The screenshot shows the 'Update Jenil Dhola iBanking Account' form. The left sidebar contains the user profile 'Jay Shah' and a navigation menu with options: Dashboard, Account, Clients, Accounts, Finances, Advanced Modules, Transactions History, Financial Reports, Complaints, and Log Out. The main form area has a breadcrumb trail: Dashboard / iBanking Accounts / Manage / Jenil Dhola. The form is titled 'Update Jenil Dhola iBanking Account' and has a 'Fill All Fields' header. It contains several input fields: Client Name (Jenil Dhola), Client Number (iBank-CLIENT-2438), Client Phone Number (9979735065), Client Email (shreeji.gamer.bot@gmail.com), Client Address (A-2/203,DEVI COMPLEX,DABHOLI CHAR RASTA), Account Name (Jenil Dhola), Account Number (573608192), Account Type (a dropdown menu showing 'Select Any Account types'), and Account Type Rates (%). A green 'Update iBanking Account' button is at the bottom.

→ In this page used for handling specific internet banking accounts of clients.

→ Update Client Banking Details to Modify account-related information such as client name, account number, phone number, email, and address.

Deposits money:

The screenshot shows the 'Deposits' page. The left sidebar is the same as the previous screenshot. The main area has a breadcrumb trail: Dashboard / iBank Finances / Deposits. The page title is 'Deposits'. Below the title, it says 'Select on any account to deposit money'. There is a 'Show 10 entries' dropdown and a search bar. The table below lists 5 entries with columns: #, Name, Account No., Rate, Acc. Type, Acc. Owner, and Action. Each entry has a green 'Deposit Money' button. The table is paginated with 'Showing 1 to 5 of 5 entries' and 'Previous 1 Next' links.

System Limitation and Future Enhancemen

DigibankX is a comprehensive **Internet Banking Management System** designed to offer secure, efficient, and user-friendly banking services. It features three key panels: **Admin**, **Staff**, and **Client**, each tailored for specific banking operations to ensure smooth financial management.

Key Features

- **Admin Panel:** Facilitates user management, loan approvals, financial report generation, and complaint handling.
- **Staff Panel:** Manages client profiles, transaction processing, and loan applications.
- **Client Panel:** Provides account management, secure transactions, loan tracking, and complaint support.

Limitations

- The system currently supports domestic transactions only.
- Manual intervention is required for loan approvals, potentially causing delays during peak periods.
- The complaint resolution process may experience slower response times if multiple issues arise simultaneously.

Future Enhancements

- Implementing automated loan approvals for improved efficiency.
- Introducing biometric authentication for enhanced security.
- Adding multilingual support to cater to a broader audience.
- Developing a dedicated mobile app for improved accessibility and user convenience.
- Enhancing financial reporting with visual insights for better decision-making.

Technologies Used

- **Front-end:** HTML, CSS, JavaScript, AJAX
- **Back-end:** PHP, MySQL
- **Libraries/Plugins:** SweetAlert, jQuery

Conclusion

DigibankX offers a robust platform for secure and efficient online banking, combining strong data validation, AJAX-based updates, and intuitive user interfaces to improve customer experience and operational efficiency.
